Environ™

Recycle Detergent

APPLICATIONS:

- Cars
- Trucks
- Heavy Equipment
- Machinery

Other applications: House washing, decks, driveways, building exteriors, all-purpose cleaning.

FEATURES / USER BENEFITS

■ Non-Caustic

No caustic, soda or potash; safe to use; protects your pressure washer

■ High Dilution Ratio

Up to 100:1 means more economical cost-in-use

■ Biodegradable

Peace of mind that it's safe to use

■ Versatile

Works with hard or soft water

■ Fast Acting

Cuts grease and suspends oils quickly

■ Quick-Release

Super quick-release surfactants let go of greases and oils for increased effectiveness in recycling system

■ Low Solid Content

For maximum cycles before discharge

■ Corrosion Inhibitors

Helps prevent flash rusting

A biodegradable, non-caustic detergent ideal with super quick-release surfactants for use with wash-water recycling systems and oil-water separators. Also features low-foaming and low-phosphate ingredients. LANDA's exclusive advanced corrosion inhibitors help prevent flash rusting.

This product contains 3 grams
of VOC per liter

Technical Data

Specific Gravity	1.03
pH (5% Solution)	11.8
Boiling Point	> 212° F
Vapor Pressure	.23mm/hg @ 70° F
Vapor Density (Air=1)	1.2
VOC Content	3g/liter
Solubility in Water	Soluble
Reactivity in Water	None
Melting Point	32° F
Foam Level	100 - 110 ml
Total Alkalinity	0.5 ml
Freeze Thaw Stable	Yes
Hard Water Stable	Yes
Insolubles	None
Shelf Life	1-Yr Minimum in closed container

*Engineered Specifically for Pressure Washers with LANDA's
Exclusive Multi-Metal Corrosion Inhibitor Formula*

SPECIAL FEATURES:

Environ is a carefully blended detergent engineered to deliver both the cleaning power of other detergents yet with enough oil-release characteristics to enhance the effectiveness of a wash-water recycling system or oil-water separator.

In addition to being biodegradable, Environ also has low-foaming and low-phosphate properties. It contains no caustics nor butyls.

It is engineered specifically to be metered through a hot- or cold-water pressure washer. The high dilution ratio makes the cost-in-use very economical.

Because it contains LANDA's exclusive, multi-metal corrosion inhibitor formula, Environ is compatible with ferrous and non-ferrous metals and helps prevent flash rusting while cleaning.

Environ can be used safely on many surfaces, including aluminum, stainless steel, glass, plastic, paint and even fine automotive paint finishes. It contains a special alcohol that helps restore painted surfaces and can give paint a "newly waxed" appearance.

Environ is ideal for cars, trucks, machinery, exterior walls, heavy equipment, farm implements, RVs, drilling rigs, mining equipment, buses, and other items that may require use a recycling system or oil-water separator.

**Si usted no puede leer inglés,
antes de usar este producto
pida a su supervisor que le
de instrucciones.**

DIRECTIONS FOR USE:

Read Material Safety Data Sheet thoroughly before using this product. For general use, mix with water at a 100:1 dilution rate. Adjust dilution depending on severity of cleaning situation. Pre-treat stubborn areas with a concentrated solution.

Apply with a Hot or Cold Water Pressure Washer: Pressure washers use an injector and mix the detergent into the water spray at a rate of about 15:1. Consult your LANDA dealer for detergent metering specifications. When using a pressure washer, wash from the bottom up (applying detergent) and rinse from the top down.

CAUTION:

May cause eye burns. Avoid prolonged or repeated contact with skin. Harmful if swallowed. Use with adequate ventilation.

FIRST AID:

EYES: Immediately flush with water for 15 minutes. Get medical attention immediately.
SKIN: Wash thoroughly with water. Get medical attention if irritation persists. **INTERNAL:** DO NOT induce vomiting. Drink water. Get medical attention immediately.
