55-Gal. Drum	Liquid Concentrate	9-37055

Highway™ Vehicle Cleaner

APPLICATIONS:

- Tractor-Trailers
- Engine Degreasing
- Farm Equipment
- Floors

Other applications: Heavy equipment, cars, trucks, RVs, floors, walls, building exterior, tanks, tanker trucks, railroad cars, buses, airport runways.

FEATURES / USER BENEFITS

■ Non-Caustic

Safe to use; protects your pressure washer.

■ High Dilution Ratio

Up to 130:1 means more economical cost-in-use

■ Biodegradable

Peace of mind that it's safe to use

■ Versatile

Works with hard or soft water; quick-release surfactant compatible with recycling systems

■ Fast Acting

Formulated to cut grease and suspend oils quickly

■ Deep Cleaning

Butyl-based blend delivers deep cleaning action

■ Corrosion Inhibitors

Helps prevent flash rusting

A fast-acting, non-caustic, butyl-based detergent for removing grease, oil and road film from tractor-trailers. Safe to use on aluminum, stainless-steel, glass, paint and even fine automotive paint finishes. Helps prevent rusting with Landa's exclusive, advanced corrosion inhibitors.

Technical Data

Specific Gravity	1.02
pH (5% Solution)	11.4
Boiling Point	> 212° F
Vapor Pressure	.23mm/hg @ 70° F
Vapor Density (Air=1)	1.2
VOC Content	Trace
Solubility in Water	Soluble
Reactivity in Water	None
Melting Point	32° F
Foam Level	170 - 180 ml
Total Alkalinity	.9 - 1.0 ml
Freeze Thaw Stable	Yes
Hard Water Stable	Yes
Insolubles	None
Shelf Life	1-Yr Minimum in closed container

*Engineered Specifically for Pressure Washers with LANDA's
Exclusive Multi-Metal Corrosion Inhibitor Formula*

SPECIAL FEATURES:

Highway is a strong, highly concentrated, butyl-based vehicle detergent formulated to quickly and effectively remove dirt, grime, grease and road film from all types of road vehicles. Highway is biodegradable.

It is engineered specifically to be metered through a hot- or cold-water pressure washer. The dilution ratio makes the cost-in-use very economical.

Because it contains LANDA's exclusive, multi-metal corrosion inhibitor formula, Highway is compatible with ferrous and non-ferrous metals and helps prevent flash rusting while cleaning.

It also has a quick-release surfactant system that lets go of oil quickly so it is compatible with wash-water recycling systems.

Highway can be used safely on virtually every surface, including aluminum, stainless steel, glass, plastic, paint and fine automotive paint finishes.

Highway is ideal for vehicle wash facilities where it can be used on tractor-trailers, heavy equipment, shop floors, metal or plastic tanks, RVs, trucks, and autos.

DIRECTIONS FOR USE:

Read Material Safety Data Sheet thoroughly before using this product. For general use, mix with water at a 130:1 dilution rate. Adjust dilution depending on severity of cleaning situation. Pre-treat stubborn areas with a concentrated solution.

Apply with a Hot or Cold Water Pressure Washer: Pressure washers use an injector and mix the detergent into the water spray at a rate of about 15:1. Consult your LANDA dealer for detergent metering specifications. When using a pressure washer, wash from the bottom up (applying detergent) and rinse from the top down.

CAUTION:

May cause eye burns. Avoid prolonged or repeated contact with skin. Harmful if swallowed. Use with adequate ventilation.

FIRST AID:

EYES: Immediately flush with water for 15 minutes. Get medical attention immediately.
SKIN: Wash thoroughly with water. Get medical attention if irritation persists.
INTERNAL: DO NOT induce vomiting. Drink water. Get medical attention immediately.
