LazerWash™

Extra-Strength Cleaner

APPLICATIONS:

- **Stainless Steel Cleaning**
- **Phosphatizing Prep**
- **Dairy Milk-Stone Removal**

Other applications: Removal of beer-stones, diesel smoke, concrete, welding smut, mortar and hard water stains; brick cleaning

FEATURES / USER BENEFITS

■ **Deep Cleaning**

Formulated for extra heavy-duty cleaning

■ **High Dilution Ratio**

Up to 10:1 means more economical cost-in-use

■ **Biodegradable**

Peace of mind that it's safe to use

■ **Versatile**

Works with hard or soft water; designed for use in a pressure washer

■ **Fast Acting**

Highly concentrated surfactant blend formulated to remove soil quickly

■ **Safe on Aluminum**

When used as directed, does not discolor aluminum nor harm glass

■ **Corrosion Inhibitors**

Superior acid inhibitor system helps minimize metal removal; does not discolor aluminum when used as directed

An extra-strength, non-fuming blend of phosphoric acid and surfactants for the absolute toughest cleaning jobs. Ideal for removing calcium buildup (milk-stones), mortar, concrete, rust, diesel smoke, welding smut and hard water scale. Helps prevent rusting with LANDA's exclusive, advanced corrosion inhibitors.

Technical Data

Specific Gravity 1.32
pH (Undiluted) < 2
Boiling Point 340° F
% Volatiles by Volume 65%
Vapor Density (Air=1) 4.1
VOC Content 0
Solubility in Water Soluble
Reactivity in Water None
Melting Point < 32° F
Foam Level N / A
Total Alkalinity N / A
Freeze Thaw Stable Yes
Hard Water Stable Yes
Insolubles None
Shelf Life 1-Yr Minimum
in closed container

Engineered Specifically for Pressure Washers with LANDA's
Exclusive Multi-Metal Corrosion Inhibitor Formula

SPECIAL FEATURES:

LazerWash is a highly concentrated cleaner superb for removing calcium deposits in milk and beer processing facilities as well as mortar, concrete, rust, diesel smoke, welding smut and hard water scale from building exteriors, walls, chimneys and cement mixers.

It is biodegradable and non-fuming.

LazerWash is engineered specifically to be metered through a hot- or cold-water pressure washer. The dilution ratio makes the cost-in-use economical.

Because it contains a superior acid inhibitor system, LazerWash helps minimize metal removal.

Safe to use on glass and aluminum. Furthermore it does not discolor aluminum if used as directed.

LazerWash is ideal for stainless steel cleaning, metal preparation prior to phosphatizing, acid dairy washing, brick cleaning and general purpose acid cleaning.

DIRECTIONS FOR USE:

Read Material Safety Data Sheet thoroughly before using this product. Mix with water at a 10:1 dilution rate. Adjust dilution depending on severity of cleaning situation.

Apply with a Hot or Cold Water Pressure Washer:

Pressure washers use an injector and mix the detergent with the water spray at a rate of about 15:1. DO NOT allow LazerWash to flow through the high pressure pump. Use a downstream detergent injector only. Consult your LANDA dealer for detergent metering specifications.

CAUTION:

May cause eye burns. Avoid prolonged or repeated contact with skin. Harmful if swallowed. Use with adequate ventilation.

FIRST AID:

EYES: Immediately flush with water for 15 minutes. Get medical attention immediately. **SKIN:** Wash thoroughly with water. Get medical attention if irritation persists. **INTERNAL:** DO NOT induce vomiting. Drink water. Get medical attention immediately.
