Top Gun™

All-Purpose Cleaner

APPLICATIONS:

- House Exterior
- Decks
- Driveways
- Vehicles

Other applications: Light equipment, cars, trucks, RVs, floors, walls, fences, trash containers, storage bins, tanks, engines.

FEATURES / USER BENEFITS

■ Non-Caustic

Safe to use; protects your pressure washer

■ High Dilution Ratio

Up to 120:1 means more economical cost-in-use

■ Biodegradable

Peace of mind that it's safe to use; no ozone-attacking ingredients

■ Versatile

Works with hard or soft water; low foaming; cleans shop floors, machine tools, equipment and engines

■ Fast Acting

Formulated to cut grease and suspend oils quickly

■ Restorative Cleaning

Non-butyl-based blend delivers deep cleaning action with advanced additives to help restore painted surfaces

■ Corrosion Inhibitors

Helps prevent flash rusting

A non-caustic, low-foaming detergent ideal for general purpose cleaning on all surfaces. Safe to use on aluminum, stainless-steel, glass, paint and even fine automotive paint finishes. Helps prevent rusting with Landa's exclusive, advanced corrosion inhibitors.

This product contains 3 grams
of VOC per liter

Technical Data

Specific Gravity	1.03
pH (5% Solution)	11.8
Boiling Point	> 212° F
Vapor Pressure	.23mm/hg @ 70° F
Vapor Density (Air=1)	1.2
VOC Content	< .3%
Solubility in Water	Soluble
Reactivity in Water	None
Melting Point	32° F
Foam Level	150 - 160 ml
Total Alkalinity	1.0 ml
Freeze Thaw Stable	Yes
Hard Water Stable	Yes
Insolubles	None
Shelf Life	1-Yr Minimum in closed container

*Engineered Specifically for Pressure Washers with LANDA's
Exclusive Multi-Metal Corrosion Inhibitor Formula*

SPECIAL FEATURES:

Top Gun is a highly concentrated, non-butyl blend of ingredients formulated to provide a non-caustic, low-foaming detergent for a broad range of uses on many surfaces. Top Gun is biodegradable.

It is engineered specifically to be metered through a hot- or cold-water pressure washer. The high dilution ratio makes the cost-in-use very economical.

Because it contains LANDA's exclusive, multi-metal corrosion inhibitor formula, Top Gun is compatible with ferrous and non-ferrous metals and helps prevent flash rusting while cleaning.

Top Gun can be used safely on virtually every surface, including aluminum, stainless steel, glass, plastic, paint and fine automotive paint finishes. It contains a special alcohol that helps restore painted surfaces and can give paint a "newly waxed" appearance. Its low-foaming characteristic makes for a fast rinse.

Top Gun is ideal for general purpose cleaning around a home or shop, including exterior walls, decks, driveways, and roofs. It is also effective in cleaning machinery, equipment, machinery, cars, RVs, and trucks. Top Gun is safe for cleaning indoors or outdoors.

DIRECTIONS FOR USE:

Read Material Safety Data Sheet thoroughly before using this product. For general use, mix with water at a 120:1 dilution rate. Adjust dilution depending on severity of cleaning situation. Pre-treat stubborn areas with a concentrated solution.

Apply with a Hot or Cold Water Pressure Washer: Pressure washers use an injector and mix the detergent into the water spray at a rate of about 15:1. Consult your LANDA dealer for detergent metering specifications. When using a pressure washer, wash from the bottom up (applying detergent) and rinse from the top down.

CAUTION:

May cause eye burns. Avoid prolonged or repeated contact with skin. Harmful if swallowed. Use with adequate ventilation.

FIRST AID:

EYES: Immediately flush with water for 15 minutes. Get medical attention immediately.
SKIN: Wash thoroughly with water. Get medical attention if irritation persists.
INTERNAL: DO NOT induce vomiting. Drink water. Get medical attention immediately.
