OPTION

## VNG

Stationary, Natural Gas-Heated, Hot Water  
Pressure Washer with Multiple-Gun Option

- Up to 10 GPM, 3000 PSI
- Belt-Drive Landa Pump with 7-Year Warranty
- Auto Time Delay Shutdown
- Electronic Ignition
- Optional Remote Stations
- LanCom Wireless Remote Control Option

▲ Industrial-strength **Motor** and cast-iron, bushing **Pulleys** use a convenient 2-bolt pulley adjustment for easy maintenance and longer life; notched, heat-reducing, "V" cogged belts connect the motor to the rugged **Landa High-Pressure Pump** with three ceramic plungers, a forged brass head and a unique design that results in lower RPM than comparable pumps for less maintenance and a longer life. The Landa Pump also is backed by a 7-year warranty.

■ Brass, anti-syphon **Detergent Metering Valve** locks out air and dispenses precise amount of cleaning agent.

■ Four quick-couple **Nozzles** are made of hardened stainless steel and mounted for ready access.

■ Industrial grade overload protected **Control Switches** provide years of reliable performance.

■ **Consolidated Plumbing** means both the water supply inlet and the quick-couple, high-pressure outlet are next to each other for ease of installation.

■ Extra-durable **Heating Coil** made of leak-free, cold-rolled, Schedule 80 steel pipe with five-year warranty.

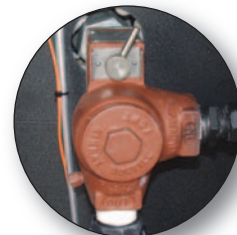

■ Rugged **Steel Cabinet**, with vented panels, is painted with an epoxy powder-coat finish for all-weather protection.

■ Helpful **Tri-Lingual Labels** with operating instructions in English, Spanish and French for owner and operator protection.

Shown with optional LanCom Wireless Remote option

■ Optional **LanCom Wireless Remote** controls pump, burner and detergent from up to 300 ft. away.

▲ Reliable **Modulating Thermostat** (6-8 GPM models) adjusts flow of natural gas so water temperature does not fluctuate during multiple-gun operation.

■ Rust-free, polyethylene **Float Tank** with stainless steel inlet filter and low-turbulence float valve allows for high-pressure application of detergent.

■ Many **Safety Features**, including automatic time-delay shutdown, rupture disk and thermal pump protector to prevent the build up of excessive pressures or heat.

■ Insulated, fatigue-free **Trigger Gun** with stainless steel, dual-lance **Variable Pressure Wand** make for easy cleaning and adjusting the pressure while washing.

■ Industrial-duty **Electric Motor** with multiple voltage options and thermal overload protection.

■ **Electronic Ignition** comes standard eliminating the hassle of having to constantly light the pilot flame.

■ Top-of-the-line **Tuff-Skin Hose** has 24-inch hose guard for burst protection and seven times the abrasion resistance as other high-pressure hoses; rated up to 6000 PSI

### Stationary, Natural Gas-Heated, Hot Water Pressure Washer with Multiple-Gun Option

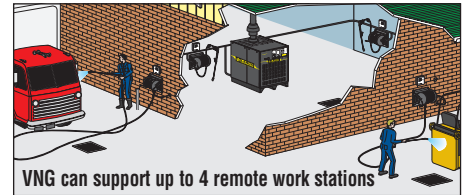

- Up to 10 GPM, 3000 PSI
- Belt-Drive Landa Pump with 7-Year Warranty
- Auto Time Delay Shutdown
- Electronic Ignition
- Optional Remote Stations
- LanCom Wireless Remote Control Option

### WHY CHOOSE LANDA'S VNG

Landa's VNG is the industry standard for natural gas heated hot water pressure washers. Housed in an attractive, but sturdy, metal cabinet with quick access control panel and industrial-duty components throughout, the VNG is flexible enough to support up to four optional remote wash stations. It is especially known for:

**QUALITY and SAFETY:** The VNG is loaded with quality and safety features. Besides being certified to the rigid UL-1776 safety standards, the VNG is manufactured in a state-of-the-art plant certified to ISO-9001 quality manufacturing procedures. Standard features, not often found on other brands, include time delay shutdown, electronic ignition, steam combination, stainless steel variable pressure wand, and pressure gauge.

**EFFICIENT:** The VNG's super-efficient burner has an energy-efficient, vertical, Schedule 80 heating coil and, for 6-8 GPM models, a modulating thermostat to regulate the gas flow in multi-gun operations.

LanCom Wireless Remote Control

**LANCOM WIRELESS REMOTE OPTION!**

Remotely controls pump, burner, and detergent from up to 300 ft. away.

### VNG Specifications

Model No.	GPM	PSI	Voltage	Amps	HP	Pump	Pump RPM	BTU	LxWxH	Ship Wt
VNG4-20024A	4	2200	230V 1ph	27	6.2	Landa Belt Drive	930	400,000	45"x36"x48"	1,010 lbs.
