VHG
Compact, Natural Gas-Heated
Hot Water Pressure Washer

- Up to 8.0 GPM, 3000 PSI
- Rugged Belt-Driven Landa Pump with 7-year Warranty
- Lancom Wireless Remote Control Option
- Electronic Ignition
- LP Conversion Option

- Top-of-the-line Tuff-Skin Hose, with 24-inch hose guard for burst protection and swivel swedge fitting for twist-free operation, has seven times the abrasion resistance as other high-pressure hoses (hose reel is optional).

- Extra-durable Heating Coil made of leak-free, cold-rolled, Schedule 80 steel pipe with five-year warranty.

- Hinged Side allows for quick access to components without removing the cabinet.

- Rugged Steel Frame (shown with stainless steel option) painted with an epoxy powder-coat finish for all-weather protection.

- Many Safety Features, including a rupture disk and thermal pump protector to prevent the build up of excessive pressures or heat.

- High-efficiency burner has Electronic Ignition standard on all models, eliminating the hassle of having to constantly light the pilot flame.

- Industrial-duty Electric Motor with multiple voltage options and thermal overload protection.

- Helpul Tri-Lingual Labels with operating instructions in English, Spanish and French for owner and operator protection.

- Industrial-grade, dual belt-driven High-Pressure Landa Pump has a tri-plex, forged brass head with a 7-year limited warranty and U-seals for greater pump protection.

- Rust-free, polyethylene Float Tank with stainless steel inlet filter and low-turbulence float valve allows for high-pressure application of detergent.

- Insulated, fatigue-free Trigger Gun with chrome-plated, dual-lance Variable Pressure Wand make for easy cleaning and adjusting the pressure while washing.

- Cast-iron, bushed-bore Pulleys with two-bolt adjustment means long life and easy maintenance on the high-pressure pump.

- Overload protected Control Switches are conveniently located for ease of operation.

- Brass, anti-syphon Detergent Metering Valve locks out air and dispenses precise amount of cleaning agent.

- Industrial-grade, dual belt-driven High-Pressure Landa Pump has a tri-plex, forged brass head with a 7-year limited warranty and U-seals for greater pump protection.

- Optional LanCom Wireless Remote (see back side) controls the pump, burner and detergent up to 300 feet away line of sight.

WHY CHOOSE THE VHG

The VHG, with its fuel-efficient burner and vertical hot water coil, is the most compact natural gas hot water pressure washer on the market today, yet is packed with Landa quality.

COMPACT: The VHG is only 24-inches wide, 53-inches long and stands 49-inches high, an amazingly small footprint for all of the features and quality it possesses. Plus there are larger models for the bigger cleaning jobs.

INNOVATION: LanCom, Landa’s exclusive wireless remote operation of a pressure washer, is available for factory installation on any VHG natural gas heated hot water pressure washer! **

QUALITY: The VHG boasts many of the industrial-grade components and safety features that have set apart Landa pressure washers as the most dependable and safe in the industry.

For instance, the VHG burner comes with standard electronic ignition on all models. The heat is retained in Landa’s carefully crafted heating coils made of leak-free, cold-rolled, half-inch, Schedule 80 steel pipe. Auto Start/Stop, another standard on the VHG, will protect the unit during unattended operation by shutting down the pump during non-use. Landa’s patented Cool-Bypass System* circulates water to prevent overheating the pump on the VHG or contaminating the water tank detergent.

LANCOM FEATURES

• The wireless remote option controls the pump, burner, and detergent
• Controls the pressure washer from up to 300 feet away
• Remote signal can go through building walls
• Saves energy with easy shut down of unit when not in use
• Saves money and hassle of installation required with hard-wired remote stations
• Saves time in changing commands while washing on a site away from main unit or on a ladder or scaffolding
